SECTION 1—LAND REVENUE

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 13153, dated the 3rd May 1907, from the Revenue Commissioner in Mysore, submitting for orders a memorandum from the Deputy Commissioner of the—District, holding that, under Government Order No. 3228-37—G. F. 134-06-1, dated the 3rd November 1906, investing the Revenue Commissioner with the administration of the Treasuries in the State, it is that officer that has to make a periodical inspection of the District Treasuries in place of the Comptroller and not the Deputy Commissioners.

Also correspondence ending with letter No. 921, dated the 8th May 1907, from the Deputy Commissioner of the—District on the same subject

No. R. 3432-41—GEN. FIN. 134-06-6, DATED BANGALORE, 2ND DECEMBER 1907.

ORDER THEREON.—By Government Order No. 3228-37—GEN. FIN. 134-6-1, dated the 3rd November 1906, the control over the Treasuries in the State and their administration were vested in the Revenue Commissioner as the chief controlling Revenue authority, and the Comptroller was relieved of the inspection of the District Treasuries twice a year, a duty which had been assigned to him by Government Order No. 8547-55—R. F. 213-92, dated 11th December 1892. In inviting attention to the above order and to Article 339 of the Civil Account Code (*in re* inspection of Treasuries by Division Commissioners and superintending officers in British India), the Revenue Commissioner issued a circular to the Deputy Commissioners requiring them to inspect their District Treasuries once every half-year and report to him the results of such inspection in the prescribed form.

2. The Deputy Commissioner of the——District points out that the responsibility of a Deputy Commissioner for the proper management and working of his District Treasury remains unaffected by the order of 3rd November 1906, the only change that has been brought about by that order being that the Treasury establishment has been made subordinate to the Revenue Commissioner and the Comptroller has been relieved of inspection work, and that since the Revenue Commissioner is the chief controlling Revenue authority in Mysore in the same way as Division Commissioners are in the Bombay Presidency and as the latter are required by Article 339 of the Civil Account Code to inspect Treasuries in that Presidency, it is the Revenue Commissioner, who has succeeded the Comptroller, that has to inspect the Treasuries in Mysore and not the Deputy Commissioners. He argues that Article 339 of the Civil Account Code cannot be made applicable to Deputy Commissioners so as to transfer to them the duties of inspection imposed on a superintending officer by that article, as the Deputy Commissioners are the officers directly responsible for the District Treasuries, which are merely presided over for convenience by a subordinate officer acting for them and under their orders.

3. The Revenue Commissioner maintains that his position is not the same as that of a Division Commissioner in Bombay, that in the Madras Presidency such inspections are performed by Collectors and that as it will not be possible for him to inspect all the Treasuries even once a year, there is nothing inconsistent with the

REVENUE

SECTION 1—LAND REVENUE

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 13153, dated the 3rd May 1907, from the Revenue Commissioner in Mysore, submitting for orders a memorandum from the Deputy Commissioner of the—District, holding that, under Government Order No. 3228-37—G. F. 134-06-1, dated the 3rd November 1906, investing the Revenue Commissioner with the administration of the Treasuries in the State, it is that officer that has to make a periodical inspection of the District Treasuries in place of the Comptroller and not the Deputy Commissioners.

Also correspondence ending with letter No. 921, dated the 8th May 1907, from the Deputy Commissioner of the—District on the same subject.

No. R. 3432-41—GEN. FIN. 134-06-6, DATED BANGALORE, 2ND DECEMBER 1907.

ORDER THEREON.—By Government Order No. 3228-37—GEN. FIN. 134-6-1, dated the 3rd November 1906, the control over the Treasuries in the State and their administration were vested in the Revenue Commissioner as the chief controlling Revenue authority, and the Comptroller was relieved of the inspection of the District Treasuries twice a year, a duty which had been assigned to him by Government Order No. 8547-55—R. F. 213-92, dated 11th December 1892. In inviting attention to the above order and to Article 339 of the Civil Account Code (*in re* inspection of Treasuries by Division Commissioners and superintending officers in British India), the Revenue Commissioner issued a circular to the Deputy Commissioners requiring them to inspect their District Treasuries once every half-year and report to him the results of such inspection in the prescribed form.

2. The Deputy Commissioner of the——District points out that the responsibility of a Deputy Commissioner for the proper management and working of his District Treasury remains unaffected by the order of 3rd November 1906, the only change that has been brought about by that order being that the Treasury establishment has been made subordinate to the Revenue Commissioner and the Comptroller has been relieved of inspection work, and that since the Revenue Commissioner is the chief controlling Revenue authority in Mysore in the same way as Division Commissioners are in the Bombay Presidency and as the latter are required by Article 339 of the Civil Account Code to inspect Treasuries in that Presidency, it is the Revenue Commissioner, who has succeeded the Comptroller, that has to inspect the Treasuries in Mysore and not the Deputy Commissioners. He argues that Article 339 of the Civil Account Code cannot be made applicable to Deputy Commissioners so as to transfer to them the duties of inspection imposed on a superintending officer by that article, as the Deputy Commissioners are the officers directly responsible for the District Treasuries, which are merely presided over for convenience by a subordinate officer acting for them and under their orders.

3. The Revenue Commissioner maintains that his position is not the same as that of a Division Commissioner in Bombay, that in the Madras Presidency such inspections are performed by Collectors and that as it will not be possible for him to inspect all the Treasuries even once a year, there is nothing inconsistent with the

powers conferred on him to direct the Deputy Commissioners to make half-yearly inspections of the Treasuries in accordance with the prescribed form, even though it is deemed that the inspections prescribed in Article 339 of the Civil Account Code devolve on him.

4. The Deputy Commissioner, on the other hand, points out that the practice in the Madras Presidency is different from that prevailing elsewhere, owing to its special conditions, and that when he had previously intended to perform such an inspection and had applied to the Comptroller for the necessary forms, the latter officer declined to supply them, as such inspections were not required to be made by Deputy Commissioners. He also states that systematic inspection of Treasuries by officers unconnected with them and having financial training will be very beneficial as calculated to reveal defects more easily than the routine inspections of Deputy Commissioners, and therefore suggests that an inspection by the Comptroller or one of his Assistants should be prescribed in addition to the inspection by the Revenue Commissioner.

5. Government observe that the object of the Order of 3rd November 1906, which is now under discussion, was to introduce the British Indian system of Treasury administration, under which the responsibility for proper executive management and working of Treasuries rests entirely with the Revenue authorities and the Accountant-General is altogether relieved of such responsibility. Accordingly, the Deputy Commissioners and the Revenue Commissioner are held responsible for the efficient administration of the Treasuries in Mysore; and without periodical inspection of the Treasuries, that object cannot be attained. The Deputy Commissioner cannot, therefore, disclaim responsibility for periodical inspection. He is not only responsible for the treasure under the immediate charge of his Assistant, but should also satisfy himself by personal inspection that the administrative arrangements in the Treasury are sufficient and that the rules laid down in the Civil Account Code and the circular orders issued by the Comptroller, are actually carried out.

6. At the same time, Government wish to point out that while issuing the order in question, it was not their intention to relieve the Revenue Commissioner altogether of the duties of inspection of Treasuries, although it was not specifically mentioned in the order that he should inspect the Treasuries. In the Bombay Presidency, the Division Commissioners, who are the chief controlling Revenue authorities under the Land Revenue Code for their Divisions, are held responsible for good and efficient Treasury administration and are required to inspect District Treasuries as laid down in Article 339 of the Civil Account Code: and it is desirable that the District Treasuries in Mysore should also be inspected at least once a year by some officer superior to a Deputy Commissioner. As the Revenue Commissioner is the ultimate head of the Department, Government consider that it is necessary that he should not neglect this means of acquiring a direct knowledge of the state of each Treasury and setting right defects. As it may not be possible for him to inspect all the Treasuries twice a year, it will be sufficient if they are inspected once a year, his attention during such inspection being confined only to important matters such as those specified in Note 2 to Article 340, Civil Account Code.

7. The Deputy Commissioners should make a detailed inspection of their Treasuries twice a year and submit their reports to the Revenue Commissioner. It is desirable that two sets of questions should be framed, one for the Revenue Commissioner and the other for the Deputy Commissioners. The Revenue Commissioner is requested to draft the forms of questions in consultation with the Comptroller and submit them to Government for approval.

8. With reference to the suggestion of the Deputy Commissioner in regard to the advisability of having the Treasuries inspected by Account Officers, Government observe that the Comptroller will, if he finds it necessary, make a special inspection of certain Treasuries, as provided for in Article 341 of the Civil Account Code, or depute one of his Assistants for the purpose, and that the change in the system of inspection introduced by the Order of the 3rd November 1906, does not in any way affect the relations that have hitherto existed between the Comptroller and the Treasury. Independently of the Revenue Commissioner's inspection, the Comptroller should arrange to have all the District Treasuries inspected by himself or one of his Assistants at least once in two years with special reference to the technical details of the Finance Department.

9. All these inspections have their own uses and Government trust that they will be usefully combined so as to result in the maximum efficiency of Treasury administration and the speedy removal of all defects.

Letter No. 2565, dated the 5th September 1906, from the Revenue Commissioner in Mysore, submitting a report in the matter of the petition of Kottige Linge Gowda and other raiyats of the Jodi Karadhalli village, Nagamangala Taluk, appealing against the Mysore Deputy Commissioner's order directing, on the strength of Government Order No. R. 12325-33—L. R. 247-03-8, dated 10th June 1905, the recovery under the Revenue Law, of the arrears of rent due from the petitioners to the Inamdar for the years previous to the date (November 1904) on which the village was taken under Government management in accordance with the orders of the then Revenue Commissioner under Section 165 of the Land Revenue Code for the arrears of Jodi due thereon.

No. R. 3453-61—L. R. 217-06-2. DATED BANGALORE, 3RD DECEMBER 1907.

ORDER THEREON.—The questions raised by the Revenue Commissioner for the orders of Government in this case, are whether it would be right for Government to treat the arrears of rent due from inferior holders to their landlords or Inamdars previous to the taking of the Inam village under Government management as public revenue, and recover the same under the Revenue Law irrespective of the period to which they may relate, and whether the Government Order of 10th June 1905, above referred to, which authorizes the recovery of such arrears without any limit of time, should not be modified in the light of the recent decision of the Chief Court in which it has been held that an Inamdar (whose village is not taken under Government management) cannot recover by a civil suit arrears of more than six years due from his kadim tenant.

2. Government agree with the Revenue Commissioner that, when an Inam village is taken under their management, Government only succeed to the rights and liabilities of the Inamdar subject to the reservations mentioned in clause (1) of Section 166, and that the words "public revenue" occurring in that clause cannot be construed to include arrears of rent due from inferior holders to the Inamdar without any limit of time.

3. The Chief Court have held that the rent payable by an inferior holder to a superior holder in an alienated village, whether the former be a kadim tenant or not, is not of the nature of land revenue so as to have all the incidents attached to the latter in favor of Government, that it is also not a charge on the land under Section 54 of the Land Revenue Code, that the Inamdar is entitled in such cases only to a money decree against the tenant, and that the period of limitation applicable in a suit for the recovery of such amounts is only six years under Article 120 of the Limitation Act.

4. Under these circumstances, Government cannot go beyond the decision of the Chief Court and allow the recovery of the arrears of more than six years previous to the date of the taking of the Inam village under Government management. Nor can Government authorize the recovery by summary process under the Revenue Law, of arrears of even six years which accrued before the assumption of management by Government, as they are regarded not as a charge on the land but as personal debts due to the Inamdar from his tenants. The order of 10th June 1905 is accordingly cancelled.

5. The question of affording facilities for the recovery of arrears of rent due to Inamdars from their raiyats, which was the object of the Government Order now cancelled, and regarding which there was also a representation from the members of the Representative Assembly, will be separately considered.

Letter No. 86, dated the 7th February 1907, from the Superintendent of Inam Settlements in Mysore, stating that the village of Hosahalli in the Mysore Taluk was settled as a *de-facto* Kayamgutta village, as no documents were produced at the time of the Inam Settlement and recommending that the village may be treated as Kayamgutta on a gutta amount of Rs. 445 as the sannad shows that the village was granted as such.

No. R. 3700-1—L. R. 452-06-7, DATED BANGALORE, 13TH DECEMBER 1907.

ORDER THEREON.— After a settlement has been made by the Inam Commissioner, the proper course for the party affected by it is to appeal to Government under Rule XXII of the Inam Rules. Though they do not provide any specific period within which appeals should be preferred against the order of the Inam Commissioner, it is to be understood that such appeals should be preferred within a reasonable time, in fixing which the provisions of the ordinary law of limitation will serve as a useful guide. Government consider that appeals long after the original settlement should not be encouraged especially when there are no adequate grounds for condoning the delay.

2. In the present case no appeal has been preferred against the decision of the Superintendent of Inam Settlement, nor did the person in whose possession the Inam village was at the time of the settlement dispute its validity. The settlement was effected so far back as 6th October 1879 and has been acquiesced in, till now. The present applicant purchased the village some years after. He must, therefore, be presumed to have bought the village subject to the incidents attached to it, as found at the time of the Inam Settlement. The Inam Superintendent was not justified in entering into the question of the nature of the original grant at this distance of time

3 The explanation offered by the applicant that he got copies of the original grant recently, cannot under the circumstances be considered as a satisfactory excuse for the long delay and laches that have occurred in this case. After a careful consideration of all the circumstances of the case, Government decline to sanction the recommendation of the Inam Superintendent.

Para 2 of Government Proceedings No. R. 9169-78—L R. 385-06-6, dated the 10th April 1907, calling for a draft of the rules which may be issued for the grant of select patches of village gomal temporarily for gram cultivation.

2. The following letter No. C. 111, dated the 11th October 1907, from the Revenue Commissioner in Mysore :—

"With reference to Government Proceedings No. R. 9169-78 —385-06-6, dated 10th April 1907, requesting me to forward a draft of the rules that may be issued in the matter of temporarily granting select patches of village gomal for gram cultivation, and subsequent reminders thereto, I have the honour to forward herewith a set of rules laying down the conditions under which such grants may be made and the procedure to be followed in connection therewith.

As I have already observed, if the system can be brought into force, it is likely to be of great advantage in improving the land and helping the growth of fodder grass, for which I have also made separate proposals."

Draft Rules for the temporary grant of select patches of gomal land for gram cultivation.

1. Whenever the whole body of rayats in a village agree to take up a portion of their gomal land for temporary cultivation they may apply for the same through the patel or some recognised headman.

2. The application should be prepared in the form annexed and the shanbhog must fill up the particulars required at the instance of the rayats.

3 The application should be presented before the Amildar in person by the villagers or their representative. The Amildar will at once verify the facts contained in the application and submit the application with his recommendation for the orders of the Sub-Division Officer. The assessment leviable should also be proposed, based on the average assessment on dry land in the neighbourhood.

4. The Sub-Division Officer will scrutinise the application without delay and, if there is no objection, order the grant of the land, fixing the assessment to be recovered.

5. On receipt of orders, the Amildar will grant a temporary *saguvali chit* in the name of the recognised representative of the villagers who will be liable to pay the assessment imposed thereon.

Provided that where there is not sufficient time for the previous observance of these formalities, the villagers may proceed to occupy and plough the land after presenting the application to the shanbhog and patel for immediate despatch to the Taluk and on the express condition to be stated in the application that they will abide by the orders of the Sub-Division Officer on their application.

6. The villagers must arrange among themselves for apportioning the area granted for cultivation and the recognised representative may collect the proportionate assessment from the raiyats.

7. Before the crop is harvested, the assessment imposed under Rule 4 should be paid up to Government and the Amildar shall have the power to prohibit the removal of the crop before payment of assessment.

In case of default, the crop may be sold by him, the sale being reported to the Sub-Division Officer within seven days from the date of such sale for confirmation. When the sale is confirmed, the excess amount realised, if any, over the assessment due, may be made over after notice to the villagers, to their representative. Should there be a deficiency, the amount of assessment still due may be ordered to be remitted by the Deputy Commissioner.

In sanctioning the grant, the following rules must be strictly adhered to :—

(*a*) The area of land granted for cultivation in any particular year should lie fallow during the next two years. This can be conveniently arranged by dividing the whole gomal of a village into three distinct plots and granting one plot each year so that by rotation each plot will be brought under cultivation every third year.

(*b*) The crop to be sown must invariably be confined to gram.

(*c*) Cultivation should on no account be allowed where it would lead to the destruction of scrub jungles or seedlings of trees.

SECTION 4—FORESTS

Proceedings of the Government of His Highness the Maharaja of Mysore.

1. Letter No. 449, dated the 23rd May 1905, from the Forest Settlement Officer in Mysore submitting a report on the completion of the settlement of the Soldevanhalli Forest in the Nelamangala Taluk.

2. Letter No. 674, dated the 22nd July 1905, from the Conservator of Forests in Mysore, stating that he has no remarks to offer on the settlement and that the area may be declared a State Forest.

3. Letter No. 3792, dated the 13—20th October 1906, from the Revenue Commissioner in Mysore.

"With reference to your letter No. R. 1248—Ft. 180-04-4, dated 27th July 1905, forwarding for opinion the papers relating to the settlement of the Soldevanhalli Forest in the Nelamangala Taluk, I have the honor to state that the proposed tract is a narrow strip of land on the eastern bank of the Kumudvati river and is intersected by numerous pathways running between the adjoining villages on the east and west. It consists of 1,000 acres and 19 guntas (equivalent to 1·56 square miles) comprising—

A.	g.	
583	30	gomal
296	25	assessed waste
120	4	kharab

in the four villages of Chowdasandra, Bolemarnahalli, Soldevanhalli and Goravanhalli.

(2) In the Chowdasandra village, the existing gomal is 116 acres and 9 guntas with a kharab of 26 acres and 33 guntas, which is hardly sufficient for 585 cattle. If, out of this gomal, 59 acres and 16 guntas is taken up for the forest, the remaining extent *viz.*, 56 acres and 33 guntas will be far below the prescribed minimum as the occupied area is 452 acres, and 3 guntas and there will be considerable difficulties for the pasturage of the cattle. The villagers therefore object to the reservation of the gomal lands. *Vide* copy of Divisional Assistant Commissioner's letter No. 52, dated 12th—14th September 1905, herein enclosed.

(3) In Bolemarnahalli village, the entire gomal (151 acres and 12 guntas) is proposed to be taken up, leaving an insignificant bit of kharab of 1 acre and 19 guntas. But the Settlement Officer has proposed that the cattle of the village, 247 in number, excluding sheep and goats, will be allowed free grazing in the forest The villagers contend and the Divisional Assistant Commissioner recommends that they should be permitted to graze their sheep also, as the sheep unlike goats feed only on grass and do not cause any damage to the trees. In fact the Settlement Officer seems to have promised to concede the villagers' prayer, but nothing has been done.

(4) In Soldevanhalli village, which has also 247 cattle, excluding sheep and goats, 333 acres and 1 gunta out of 337 acres and 1 gunta of gomal are proposed to be included in the forest, leaving an extent of 4 acres gomal, 364 acres and 9 guntas kharab and 14 acres and 24 guntas assessed waste. The Settlement Officer has rejected the claim of the villagers to exclude the gomal lands and has ordered that the kharab and assessed waste lands will not be sold for hulbanni but left for free grazing from the date the settlement takes effect. The nature of the kharab is not known. Further, as remarked by the Divisional Assistant Commissioner, it is not intended to convert the kharab and assessed waste as gomal but it is only proposed to remit the annual hulbanni collections in future, and there is nothing to prevent these lands being given out for cultivation when darkhasts are received.

(5) The present Deputy Commissioner (Mr. H. H. Sparkes) is averse to the proposed settlement as he considers that the arrangement proposed by the Settlement Officer for free grazing in the forest will lead to disagreement between the Forest and the Revenue Departments, that it will be extremely hard to deprive the raiyats of their gomal lands as they depend on these lands for their living, which chiefly consists in sheep-breeding, and that it will be opposed to the promise made at the time of the Survey Settlement when the raiyats were allowed certain privileges on lands set apart as gomal—*vide* his letter No. 53 dated 14th—16th May 1906, enclosed.

(6) As regards the waste lands, I may state that the population of these villages has been steadily increasing as will be seen from the margin, and the present average area of occupied lands for each family of 5 members may be roughly put down at 10 acres, which cannot be considered sufficient. Moreover as the tract is situated amidst well populated villages, provision should be made for future requirements and the existing assessed waste should be kept open for cultivation.

	Population as per Census of—		Occupied area		Assessed waste

Chowdasandra ...	205	207	452	3	276	17

(7) For these reasons I regret I cannot recommend the reservation of this block

(8) The papers received with your letter as noted in the margin are herewith returned."

4. Letter No. 4289, dated 15th—19th November 1907, from the Conservator of Forests in Mysore, stating that there were no appeals against the Settlement Officer's decisions, that the Revenue Commissioner's objections in regard to the area left for village requirements could be met by allowing free grazing for cattle and sheep of Chowdasandra and other villages and the conversion of 364 acres of kharab of Soldevanhalli into gomal and that if this course is not acceptable to Government, the area may be declared a reserved land under Section 35 of the Forest Regulation.

No. R. 3641-4—Ft. 180-04-10, dated Bangalore, the 11th December 1907.

Order thereon.—Government observe that the object of constituting the block a State Forest will be greatly defeated by allowing unrestricted grazing even to a few villages in it and that it is not possible to make adequate provision for the requirements of the villagers and the future expansion of cultivation if it is notified under Section 17 of the Forest Regulation. They are therefore pleased to direct that the tract be declared a reserved land under Section 35 of the Forest Regulation and that a notification as hereunder be published in the *Mysore Gazette.*

Letter No. 4246, dated the 13th November 1907, from the Conservator of Forests in Mysore, submitting, for approval, forms of Inspection Reports of sandal koties and sale depots, and requesting that the same may be caused to be printed as Appendices V and VI to the Mysore Forest Department Code.

No. R. 3703-4—FT. 96-07-2, DATED BANGALORE, 13TH DECEMBER 1907.

ORDER THEREON.—The Code provides that sale depots must be examined twice a year. The Consevator reports that it is not convenient to have such half yearly inspections in the case of sandal koties as it is not possible to check stock easily between the months of July and March when the koties are usually full of both assorted and rough wood and operations connected with the preparation of the wood for sale and disposal of it are in full swing. He, therefore, proposes to have only one detailed examination between April and July when the wood that has been sold has all been removed and the actual stock can be easily determined.

2. The Government approve of the proposal made above. The forms, which are suitable, will be printed as Appendices V and VI to the Forest Department Code, and 1,000 copies of the former and 500 copies of the latter will be supplied to the Conservator of Forests.

Government Order No. R. 7909-19—Ft. 73-06-3, dated the 2nd March 1907, revising the rules relating to the issue of licenses through middlemen for the collection and sale of timber and other forest produce.

No. R. 3967-77—Ft. 77-07-1, DATED BANGALORE, 27TH DECEMBER 1907.

ORDER THEREON.—The rules as issued in November 1901, contain certain marginal remarks made by Mr. H. Ramanuja Iyengar, the then Deputy Commissioner of the Mysore District, as to the directions in which the rules were capable of improvement. When the rules were issued in 1901, they applied only to the Mysore District; and as they were introduced only tentatively for one year, it was not considered necessary to pass final orders on the modifications suggested, but they were noted in the margin so that when some experience was gained of their working, the necessity for the modifications might be considered in the final report that was sent to Government. The Conservator, however, in proposing the extension of the system throughout the State did not express any opinion on the modifications suggested by Mr. Ramanuja Iyengar and in issuing the rules and directing their introduction tentatively throughout the State for two years, these marginal remarks were not omitted. As, however, their existence is likely to lead to some misapprehension, Government direct that the rules be republished as hereunder omitting all the marginal remarks. It will be observed from the wording of Rule 7 that the Taluk Amildar continues to be empowered to issue the licenses in question. The question whether the rules require any further revision will be considered after the expiry of the period for which they have been tentatively sanctioned, in the light of experience derived during the two years during which the system will have been at work.

NOTIFICATION.

No. R. 3978—*Ft.* 77-07-2, *dated 27th December* 1907.

The Government of His Highness the Maharaja of Mysore are pleased to direct that the following rules for the grant of licenses for timber and other produce be published for general information:—

For all timber and other forest produce sold otherwise than from forest or sale depots, a prepaid license must be obtained from persons authorized to grant it before any of the aforesaid produce can be cut, collected or removed by the purchaser.

2. License forms will be in books containing 50 forms in each in triplicate and shall be supplied only by the District Forest Officer. The forms should bear two printed numbers,—one book number and the other serial license number as in Forest cheque books. The former shall run on continuously for each kind of license not changing with the year, and the latter serially from 1 to 50. Such licenses should also bear the stamp of the District Forest Office.

3. Licenses will be of seven kinds as detailed below:—

1. For timber of reserved kinds	...	Printed on white paper	
2. For timber of unreserved kinds	...	Do	yellow do
3. For firewood and charcoal	...	Do	red do
4. For bamboos	...	Do	blue do
5. For grazing	...	Do	green do
6. For minor forest produce	...	Do	brown do
7. For general	...	Do	rose do

4. All license books will be supplied from the Stationery Office, Bangalore, to the Conservator of Forests in Mysore, who will keep a stock of them and supply

as many as may be required on indent to each District Forest Officer, who will submit an abstract statement of receipts, issues and balances in hand in Form A.

5. The District Forest Officer will supply the license books to issuing officers either direct or through the Range officers on indent which should be accompanied by a statement in Form A.

6. An account shall be kept by the District Forest Officer and Range officers of all license books received and issued in Form B and of a ledger account in Form C. License books of all descriptions must be kept securely under lock and key, and the District Forest Officer and Range officers will invariably check and compare the numbers with the periodical statements on inspecting offices.

7. *License-issuing officers.*—Besides the Taluk Amildar, whose powers of issuing licenses are not affected by these rules, there will be four classes of license-issuing officers, *viz.*,—

1. Specially authorized Forest officers	3. Salaried license-vendors
2. Do do village officers	4. Commissioned license-vendors

There shall not be more than four such license-issuing officers in each range, including Forest and village officers.

Village officers and commissioned vendors will receive commission ranging between a minimum of Rs. 6-4-0 and a maximum of Rs. 12-8-0 per cent on the monthly amounts collected. The limits within which Forest officers are authorized to receive and retain moneys, prescribed in Government Proceedings No. 2907-16—Ft. F. 16-96, dated 5th October 1899, should not be exceeded.

Security is not necessary in the case of village officers whose solvency and respectability are vouched for by Amildars, but in the case of others as well as of the last two classes, cash security in the shape of Savings Bank deposit for Rs. 150 or personal security for Rs. 300 should be taken. They should further execute an agreement for good behaviour in Form D.

8. License-issuing officers shall remit to the nearest Taluk Treasury the amount of their collections accompanied by a letter of advice as often as possible, but not less than once a month. License-issuing officers of the last two classes shall not retain in their hands revenue in excess of their securities.

9. The commission earned by vendors of the second and fourth classes will be paid to them by the Range officers on receipt of their monthly accounts supported by Treasury receipts.

10. *License-recovering officers.*—Duplicates of licenses issued shall be recovered by—

1. Forest officers. 2. Specially appointed recovering officers. 3. Village officers.

Licenses should be checked and the produce covered by them compared, as far as possible, before the produce leaves the limits of the forest. Patels of villages should check every license taken out in their villages and recover the duplicates. All duplicates recovered by recovering officers shall be sent to the Range officer once a month.

11. *How to write up license forms.*—Issuing officers will receive from applicants the prescribed fee on the produce applied for and write up all the three parts of the license form in accordance with instructions as regards locality, quantity, route, etc., which will be issued from time to time by the District Forest Officer. They shall sign and date each part, hand over the original and duplicate to the purchaser and keep the triplicate attached to the book as a counterfoil for record in his office.

12. *Duties of license-issuing officers.*—Licenses should be issued at all hours of the day and no purchaser should be detained longer than it is necessary to receive his fees and write up the license. License-vendors will remit all the collections into the Taluk Treasury with as little delay as possible. They will be solely responsible for the safe custody and transmission of revenue. They should maintain a register of receipts and issues of licenses in Form E and a daily abstract in Form F. A monthly abstract of the latter should be submitted to the Range officer in the same form supported by Treasury receipts. License books, accounts and cash will be open to the inspection of all Revenue, Forest and Police officers.

Counterfoils of used-up license books should be returned to the Range officer.

13. *Duties of Range officers.*—The Range officers will maintain the following registers :—

1. Register of receipts and issues of license books in Form B.
2. Ledger showing license books issued and returned by issuing officers in Form C.
3. Register showing abstract of monthly statements of permits issued and revenue realized in support of the entries in their cash accounts in Form F. This register will be compiled from the corresponding monthly returns received from the issuing officers. They shall take care to compare the figures with those entered in recovered duplicates. A copy of this register will be submitted to the District Forest Officer with the monthly accounts.

14. All revenue obtained by sale of licenses and credited into the Treasury should be exhibited with full particulars in the debtor and creditor sides of the cash book.

15. On receipt of the license-issuing officer's accounts, they should check them carefully, and if found correct, disburse to vendors entitled to them the commissions they have earned. License books and accounts of license-issuing officers should be checked once a month by the Range officers or Foresters.

16. The counterfoils of license books returned by issuing officers will be checked carefully with the monthly returns submitted by issuing officers, and any differences noticed shall immediately be brought to the notice of the District Forest Officer. Recovered duplicates of licenses will be compared with their corresponding counterfoils and pasted on to them, reporting to the District Forest Officer any differences noticed between them. Counterfoils of used-up license books together with the recovered parts shall be sent to the District Forest Officer for custody. District Forest Officers will check Registers E and F of license-vendors and their license books at least twice a year and note the result in their weekly diaries. They will also check Registers B and C maintained at Range offices and license forms, counterfoils and recovered duplicates of licenses and record the result in their half-yearly Range Office inspection report.

17. *Duties of recovering officers.*—As soon as produce has been checked with the license and found to be correct, the original and duplicate parts of the license shall be endorsed under the signature of the recovering officer with the words "checked and passed," and the endorsement shall be dated and the original license will be handed over to the person producing it and the duplicate retained for transmission to the Range officer. Should the produce not agree in quantity or kind with that specified in the license, it will be retained and a report to that effect submitted to the nearest Magistrate or Forest or Police officer.

Patels of villages will be held responsible for checking licenses and comparing the produce covered by them when such produce is removed into their villages and for the punctual transmission of recovered licenses to the Range officer.

18. *Conditions under which the license is granted.*—The following conditions will be printed on the back of the original license for the guidance of the licensee :—

(*a*) The license is not transferable and must be shown on demand to any Forest officer, any Revenue officer or to any Police officer.

(*b*) The licensee shall produce this for check with the produce before the Forest officer from whose jurisdiction the produce has been removed, or to any recovering officer specially appointed for the purpose, or to the patel of the village into which the produce is removed.

(*c*) The licensee shall observe all the conditions stated in this license as to quantity and kind of produce and as to the locality where it should be collected and the road by which it should be removed.

(*d*) Any breach of the above conditions will render the holder liable to immediate cancelment of this license and to the punishment provided by law.

19. *General.*—If, before the expiry of the period mentioned in the license, the produce has not been cut, collected or removed in pursuance of the license, the license shall be deemed to be cancelled, but the licensee shall be entitled to an extension of the period upon his proving to the satisfaction of the Range officer that the non-removal was owing to unavoidable causes, such as heavy rains, floods or any accident while in transit, on his paying a renewal fee equivalent to one-fourth of the fee already paid. Such extension of period should be immediately intimated to the license-issuing officer for note in the original license.

SECTION 5—REVENUE MISCELLANEOUS

Proceedings of the Government of His Highness the Maharoja of Mysore.

READ—

1. Government Order No. R. 9553—R. M. 290-06-2, dated 26th April 1907, recording the Revenue Commissioner's letter No. 11556, dated 11th April 1907, on the occurrence of an accidental fire at Gubbahalli in the Krishnarajpete Taluk.

2. Government Order No. R. 10974—R. M. 351-06-2, dated 29th June 1907, recording the letter of the Revenue Commissioner No. 15369, dated 24th June 1907, on the occurrence of an accidental fire at Maduvanahalli in the Yedatore Taluk and on the arrangements made for affording relief to the raiyats concerned.

3. Letter No. 153, dated 12th September 1907, from the Deputy Commissioner of the Mysore District, reporting that in the place of the Sakshibidu tank, the restoration of Gubbahalli and Maduvanahalli tanks was undertaken, as the former work was found to be quite useless, and requesting that, in consideration of the fact that the raiyats lost their houses and food grains, the Government demand against them for their share of the works may be waived.

No. R. 3580-2—R. M. 290-06-4, DATED BANGALORE, 9TH DECEMBER 1907.

ORDER THEREON.—While reporting on the destruction by fire of twenty-eight houses of Gubbahalli village of the Krishnarajpete Taluk, the Deputy Commissioner of the Mysore District stated that he would also cause the restoration of the Sakshibidu tank to be undertaken as a means of providing employment to those rendered destitute by the fire. Finding this work to be of no use, he directed the restoration of Gubbahalli and Maduvanahalli tanks entirely at Government cost, as the raiyats were not immediately able to contribute anything towards the cost of earth-work, and the delay in executing the works would defeat the object of starting them, *viz.*, to help the destitute who were affected by the fires. Under the circumstances, Government are pleased to approve of the Deputy Commissioner's action and remit the recovery of the cost of earth-work from the raiyats.

Letter No. 3700, dated the 18th September 1907, from the Revenue Commissioner in Mysore, forwarding for the orders of Government, letter No. 133, dated the 3rd September 1907, from the Deputy Commissioner, Mysore District, soliciting instructions as to how in cases where repairs to restored tanks are rendered necessary by reason of the neglect of the raiyats to do the annual maintenance work, the cost in excess of the one year's assessment to which the liability of the raiyats has been declared to be limited, is to be met and debited in the accounts.

No. R. 3819-21—R. M. 74-07-2, DATED BANGALORE, 18TH DECEMBER 1907.

ORDER THEREON.—Government observe that, if the annual maintenance work is properly enforced, there will be no occasion for executing repairs which cost more than the one year's assessment recoverable from the raiyats.

2. If, through want of prompt action on the part of the Revenue officers in enforcing the liability of the raiyats to carry out the year's maintenance, the cost of repairs exceeds one year's assessment, such excess should be recovered from the Revenue officers responsible, *viz.*, the Amildar, the shekdar, and the patel of the village.

3. At para 2 of his letter under disposal, the Deputy Commissioner refers to the imprest for carrying out maintenance works, sanctioned in Government Order No. R. 9110-20—R. M. 214-06-2, dated the 8th April 1907. This imprest is intended only to enable Revenue officers to carry out the maintenance work for the year, when the raiyats fail to do it. Repairs rendered necessary by previous neglect should be undertaken only on proper estimates and sanctions. The imprest sanctioned in the order of 8th April 1907 should not be used for carrying out such repairs. The cost of such repairs will, as heretofore, be met in the first instance from the Public Works letters of credit placed at the disposal of the Deputy Commissioners and will afterwards be recovered, to the extent of one year's assessment.

4. It is noted that although the correspondence which led to the issue of the Government Order of 8th April 1907 referred to the maintenance of restored tanks and channels, in para 3 of this order, sanctioning an imprest, reference is made to the annual maintenance of channels only being met from the imprest. This is a mistake. The imprest is to be utilized for carrying out the annual maintenance of tanks as well as channels.

1. Subject No. 171 of the Representative Assembly of 1906 *re* the relaxation of the rule requiring shanbhogs to reside within their circles, and the reply of Government thereto.

2. Correspondence ending with letter No. 3901, dated 26th September 1907, from the Revenue Commissioner in Mysore, submitting his opinion in the matter.

No. R. 3936—R. M. 215-06-3, DATED BANGALORE, 23RD DECEMBER 1907.

ORDER THEREON.—Government agree with the Revenue Commissioner that the rule requiring shanbhogs to live in one of the villages comprising the circle of their shanbhogi office should be relaxed in some cases where, owing to the villages being bechirakh or depopulated, or not containing any other houses of members of their community or being unsuitable for residence owing to general unhealthiness, or scarcity of water-supply, it will be a source of great hardship strictly to enforce it. They are therefore pleased to direct that in such cases the Deputy Commissioner may permit the shanbhog to reside in some other village, provided (1) the village selected for residence is situated within the hobli where he holds the office, and (2) that it is situated at a distance of not more than three miles from any one of the villages comprised in the firka. Except in these cases, any shanbhog who has not complied with the general rule, or who having been exempted by the Deputy Commissioner from it for any of the causes mentioned above, fails to abide by the conditions under which it was relaxed, will be regarded as having vacated his office and will be liable to be replaced by a competent claimant or other person willing to abide by the Deputy Commissioner's order. The Deputy Commissioner's order on the question whether any particular case is deserving of the relaxation permitted above will be final.

SECTION 2—SEPARATE REVENUE

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 3774, dated 20th November 1907, from the Excise Commissioner in Mysore, submitting the record of enquiry relating to the toddy revenue of Kayamgutta Kodihalli village, Goribidnur Taluk, and stating that he concurs in the opinion recorded by the investigating officer and the Deputy Commissioner that the Inamdar is not entitled to the revenue in question.

No. FL. 2674-5—S. R. 126-07-2, DATED BANGALORE, 4TH DECEMBER 1907.

ORDER THEREON.—The village has no toddy shop but only a few date trees. Toddy revenue has not been conceded in the sannad and it has been expressly reserved to Government at the Inam Settlement conducted in 1879. The Inamdar is therefore not entitled to this revenue.

2. Government observe that there has been an inordinate delay in the disposal of this case, which, it is hoped, will be avoided in future. The claim was investigated by the Sub-Division Officer so far back as January 1903, and the opinion of the Deputy Commissioner was recorded on 28th September 1905. But the record of the case has been submitted to Government only on 20th November 1907.

SECTION 4—SALARIES AND ALLOWANCES

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

1. Memo, dated 8th June 1907, from the Secretary to Government, Public Works Department, submitting letter No. 7461, dated 15th May 1907, from the Comptroller requesting the sanction of Government in the Financial Department to the charges incurred by the Superintending Engineer, Western Circle, in taking his conveyance by rail at Government cost on occasions of his tour on duty, and suggesting, for reasons stated, that the discretion of sanctioning charges of the kind should be left wholly to the Head of the Department concerned, and that the sanction accorded by the Secretary in the case of the Public Works Department should be accepted as final.

2. Letter No. 15428, dated the 21st June 1907, from the Revenue Commissioner in Mysore, submitting for reconsideration the rule laid down in Government Order No. Fl. 5530-1—S. & A. 154-06-10, dated the 19th January 1907, that a general sanction to take conveyances by rail does not dispense with the necessity to satisfy the audit office of the conditions laid down in Article 540, Mysore Service Regulations, having been fulfilled in every case.

3. Letter No. 15429, dated the 24th June 1907, from the same officer on the same subject, submitting his travelling allowance bill for May 1907, which includes charges for having taken his conveyances by rail.

4. Memo dated 8th August 1907, from the Chief Engineer and Secretary, Public Works Department, submitting the case of Mr. Vasudeva Rao for the orders of Government, and requesting early orders as suggested in his memo dated 8th June 1907.

No. Fl. 2680-722—S. & A. 154-06-20, DATED BANGALORE, 4TH DECEMBER 1907.

ORDER THEREON.—The communications read above relate to objections raised by the Comptroller to admit in audit the charges incurred by certain officers in sending their conveyances by rail when proceeding on tour and for bringing them back to head-quarters.

2. The general rule on this subject is contained in Article 540, Mysore Service Regulations, and the second note to this article contains an elaborate discussion of the principles which should regulate the grant of sanction to take conveyances by rail at the cost of Government.

3. The audit office has, however, objected to the charges in several cases on the ground that the sanctions given by certain Heads of Departments have not been in accordance with the principles enunciated in the note. This procedure, which is warranted neither by the article, or the note, and by which the audit office claims to sit in judgment on the exercise by Heads of Departments and others of the discretion specially vested in them by the article and the note, has created certain practical difficulties in the enforcement of the rules.

4. Government have very carefully considered the whole subject and are of opinion that certain further instructions in the matter are necessary to clearly define the respective responsibilities of the administrative and audit offices for the strict enforcement of the rules.

5. Government observe that the concession of taking conveyances by rail is an exceptional one and should not be granted so as to contravene the fundamental principle that travelling allowances should not be made a source of profit. The concession is one that requires careful watching and Government consider that sanction to take conveyances by rail has been too freely given in the past by Heads of Departments and that such sanction should be given, not as a matter of course, but only in

exceptional cases, and in the interests of the public service. Government are, however, of opinion, that it is the Heads of Departments and the Administrative Secretaries of Government that should be primarily responsible to enforce the rules and see that the concession is granted only in cases clearly covered by Article 540, Mysore Service Regulations, and the notes thereto. In the case of Heads of Departments and Deputy Commissioners themselves, the sanction required under Article 540, Mysore Service Regulations, will be that of Government in the Administrative Secretariat concerned. Sanctions given by Heads of Departments and others in the case of subordinate officers should be reported to Government in the Administrative Department concerned for confirmation. It will be a direction to Heads of Departments and the Administrative Secretariats that permission under Article 540 should not be granted except when the conditions laid down in Article 540, Mysore Service Regulations, and the notes thereto are fully complied with, and the duty is emergent and will not permit of the conveyance being sent by road. In according or confirming such sanction the Administrative branches of Government will consult the Financial Department in accordance with Government Order No. Fl. 8334-72, dated 6th May 1907.

6. With these observations, Government direct that the sanctions of Heads of Departments and others when confirmed by Government or of Government in the Administrative Department, should be accepted and acted upon by the audit office without further question.

7. Separate orders will be passed regarding the Revenue Commissioner's claim referred to in his travelling allowance bill for May 1907. The bills that are pending audit will be disposed of in accordance with the above instructions.

JUDICIAL AND LEGISLATIVE

SECTION 2—COURTS

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 2516—130, dated the 30th September 1907, from the Registrar of the Chief Court of Mysore, submitting the Report on the Administration of Civil Justice in Mysore for 1906-07, together with the usual returns.

No. J. 1762—CTS. 104-07-5, DATED BANGALORE, THE 10TH DECEMBER 1907.

ORDER THEREON.—Recorded.

2. *General.*—During the year under review, the small cause jurisdiction of the Sub-Judge of Chikmagalur was reduced to Rs. 100 and the taluk of Malur was placed under the jurisdiction of the Munsiff of the Kolar Gold Fields in the interests of the litigant public.

3. *Work in the Chief Court.*—The work of the Chief Court was, as usual, confined to the disposal of appeals from the lower Courts. Inclusive of 289 appeals pending at the end of last year, the total number of first appeals for disposal during the year was 649. Fifty-two of these were transferred to the District Judge of Bangalore and 229 were disposed of by the Chief Court, leaving 368 pending at the end of the year. The number of second appeals filed during the year was 215. Including 118 pending from the previous year, there were in all 333 second appeals as against 376 in 1905-06. Of these, the number disposed of was 135, that is, only about one-half of the number disposed of in the previous year. The average duration of first and second appeals was 296·10 and 238·62 days, respectively, as against 312 and 214 days in the previous year.

4. *Original work of subordinate Courts.*—The number of original suits, including ordinary and small cause, instituted in all the subordinate Courts fell from 19,408 in the last year to 17,565. The number of suits pending at the end of last year was 6,177. Thus, the total number for disposal was 23,742, of which 14,189 were ordinary suits and 9,553 were small causes. The number of ordinary suits disposed of was 9,960, of which 1,175 or 11·80 per cent were disposed of without trial, 5,873 or 58·96 per cent without contest, 2,907 or 29·19 per cent after contest and 5 by reference to arbitration. The number of small causes disposed of was 7,768. The average duration of contested original suits was 228·56 days against 175·57 in the previous year and that of small causes 102·46 against 87·13. This increase in duration is attributed to the disposal of some old cases. Government observe that the reason given is not adequate, and they invite the attention of the Chief Court, in this connection, to the remarks in para 3 of their Order No. J. 1323—Cts. 99-06-4, dated the 19th November 1906, reviewing the report for last year. It is, however, noted that in uncontested suits the average duration has fallen from 88 to 47·77 days.

5. *Appellate work in the subordinate Courts.*—The total number of appeals for disposal in the Courts subordinate to the Chief Court was 1,040, including 378 pending at the end of 1905-06. Of these, 745 or 91 more than in the last year, were decided, leaving 295 pending disposal at the end of the year. The average duration of appeals rose from 88 to 106·77 in the Sub-Courts and from 195 to 310·95 in the District Courts. It is explained that this high average duration was due to the disposal of many long-pending appeals.

6. *Execution.*—Out of 29,794 applications for execution of decrees, inclusive of those pending from last year, 25,403 were disposed of. The percentage of infructuous applications for execution fell from 64·01 to 62·87. In 1,532 cases, immovable property, and in 279 cases movable property, was sold. Of 544 persons ordered to be imprisoned, only 73 were imprisoned.

7. *Finance.*—The total receipts and expenditure of all Courts including the Chief Court amounted to Rs. 3,81,602-13-0 and Rs. 3,84,209-5-1 respectively. Fees realised on account of processes amounted to Rs. 90,285-8-0 or about Rs. 5,560 less than the collection of last year. The cost of the process-serving establishment was Rs. 61,895, and the savings amounted to Rs. 28,391 as against Rs. 33,993 in the last year.

8. *Inspection.*—Government note with satisfaction that during the year nearly all the Courts in the State were inspected either by the Judges of the Chief Court or the District Judges.

Letter No. 5486-261, dated the 3rd April 1907, from the Registrar of the Chief Court of Mysore, forwarding a draft rule of practice on the subject of the destruction of licenses under the Explosives Regulation and adding that the District Magistrates who have been consulted have expressed themselves in favor of the proposed limit of time.

2. Correspondence ending with letter No. 813-51, dated the 27th July 1907, from the same officer.

No. J. 1793-1802—CTS. 232-06-6, DATED BANGALORE, 13TH DECEMBER 1907.

ORDER THEREON.—Government are pleased to lay down the following rule for regulating the destruction of licenses granted under the Explosives Regulation (II of 1888) and the records connected with such licenses:—

"All licenses granted under the Explosives Regulation, II of 1888, and the records connected therewith will be destroyed one year after the expiry of the period of their currency."

Letter No. 2524-134, dated the 1st October 1907, from the Registrar of the Chief Court of Mysore, submitting the report on the administration of Criminal Justice in Mysore for 1906-07 with the prescribed returns.

No. J. 1803—CTS. 105-07-5, DATED BANGALORE, 13TH DECEMBER 1907.

ORDER THEREON.—*Work in the Chief Court.*—Including 66 appeals pending at the close of the preceding year, there were before the Chief Court 254 appeals from convictions, involving 320 persons. Sentences were reversed in respect of 39 persons and altered or reduced in respect of 46; 25 persons were ordered to be tried afresh, and the appeals of 163 persons were rejected or dismissed, thus leaving 47 persons whose appeals were pending at the end of the year. Of the 8 appeals against acquittals, the order of the lower Court was reversed in one case, upheld in 2 cases and fresh trials were ordered in 2 cases, leaving 3 cases pending at the close of the year as against 4 last year.

2. *Appellate work of subordinate Courts.*—Including 73 persons whose appeals were pending at the close of last year, the number of persons dealt with by appellate Courts subordinate to the Chief Court was 1,139 or 124 less than in 1905-06. Of these, 921 were before Magistrates and the remaining before Sessions Judges. The

appeals of 885 persons were disposed of by Magistrates and those of 207 by Sessions Judges. There were awaiting disposal at the close of the year 47 persons as against 73 in the previous year.

3. *Sessions cases.*—Inclusive of 26 cases pending for disposal at the end of 1905-06 and 7 cases committed to the Sessions at the end of 1905-06 but received during the year under review, there were for disposal 155 cases involving 329 persons against 190 and 433, respectively, in the previous year. one hundred and forty-two cases involving 310 persons were disposed of, leaving 13 cases involving 19 persons pending at the close of the year.

There was no case tried by jury during the year under review. Out of 127 cases tried by Sessions Judges with the aid of assessors, the Judges agreed with the assessors in 87 cases, differed from one assessor in 17 cases, from 2 assessors in 7 cases and from all the three assessors in 16 cases.

4. *Magistrates' work.*—The number of persons tried by Magistrates was 27,841 as against 28,695 in 1905-06. Of these, the cases of 26,122 persons were disposed of as against 26,681. The number of persons who were awaiting trial at the end of the year was 1,719 as against 2,014 in the previous year.

5. *Persons brought to trial.*—Inclusive of 2,075 persons who were awaiting trial at the close of last year, 27,935 persons were brought up for trial. The cases of 26,189 persons were disposed of. Of these, 19,461 or about 70 per cent were discharged or acquitted, as against 66 per cent in the last year, many of them being concerned in compoundable offences.

6. *Average duration of appeals and cases.*—The average durations of appeals in the Chief Court and in Sessions Courts were higher than in the previous year. In the Chief Court, it was a little more than 45 days or nearly twice as much as in the previous year. In Sessions Courts it rose from more than 15 days to more than 20 days. The increase in the duration of appeals in the Chief Court is stated to be due to the disposal of a large number of appeals pending at the close of last year. The high average duration in the Sessions Courts is attributed to the disposal of heavy and complicated appeals and also to some cases having been remanded to lower Courts for additional evidence being recorded.

In the Courts of Magistrates, the average duration of appeals was a little more than 13 days as against nearly 18 in the previous year. The average duration of cases other than appeals in the Magistrates' Courts and in Sessions Courts was 5 and 3, respectively, as against 8 and 3 days in 1905-06.

7. *Work done by Justices of the Peace.*—The number of cases tried by Justices of the Peace increased from 21 cases involving 26 persons in 1905-06 to 25 cases involving 34 persons in the year under review. In 15 cases involving 22 persons, the accused were acquitted; and in 10 cases involving 12 persons, they were convicted.

8. *Preventive jurisdiction.*—During the year, the number of persons ordered by Magistrates to give security for keeping the peace or for good behaviour increased from 57 in the previous year to 82. Of these, 49 were imprisoned for failure to furnish security.

9. *Inspection.*—There was a fair amount of inspection of Subordinate Courts done during the year by District Magistrates. As to inspection by the Chief Court, Mr. Justice H. V. Nanjundayya inspected the District Magistrate's Court at Kolar, and Mr. Justice P. S. Krishna Rao those at Kadur, Shimoga and Chitaldrug.

SECTION 4—REGISTRATION

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 974, dated the 28th September 1907, from the Inspector-General of Registration in Mysore, submitting a report on the working of the Registration Department for 1906-07.

No. J. 1708—REGIS. 20-07-2, DATED BANGALORE, THE 3RD DECEMBER 1907.

ORDER THEREON.—Four experimental offices at Alur, Sorab, Shikarpur and Kallurkatte and five permanent special Sub-Registry offices at Koppa, Mudgere, Harihar, Sagar and Honnali were abolished during the year under review, and the work in the Alur and Harihar Sub-Registry offices was ordered to be done by the Deputy Amildars at those places and in the remaining offices by the Taluk Sheristadars at the respective stations. There were thus 52 special and 26 *ex-officio* Sub-Registry offices at the end of the year against 61 of the former and 17 of the latter at the end of the previous year.

The other important changes effected during the year were :—

(1) The reclassification of the Special Sub-Registrars ;

(2) The revival of the old practice of exempting the first 300 words of a document from payment of any transcription fee and levying a fee of four annas on every additional 100 words or fraction thereof ; and,

(3) The introduction of the practice of Sub-Registrars themselves searching the registers of the Sub-Registry offices and furnishing certificates and levying for the purpose a fee of one rupee for the first year and four annas for every additional year.

2. The number of documents of all kinds registered during the year was 70,865 against 74,149 in the previous year. The total receipts of the Department also fell from Rs. 1,58,228 in the year 1905-06 to Rs. 1,42,466. The decrease in the former case is attributed to the recrudescence of plague, small-pox and cholera, and in some places also to the favourable seasonal conditions of the year ; and the decrease in the latter case is attributed partly to the decrease in the number of registrations and partly to the introduction of the old rules *re* transcription fees.

3. Owing to the abolition of the nine Sub-Registry offices above referred to, the total expenditure of the Department fell from Rs. 86,507-12-4 in 1905-06 to Rs. 85,418-2-1. But the net surplus of the Department fell short of that of the previous year by Rs. 14,672-4-2, having been only Rs. 57,048-2-6 against Rs. 71,720-6-8 in the year 1905-06.

4. There were six prosecutions instituted during the year against four in the previous year. Of these, four were for false personation and forgery, one was for forgery and one was under Section 82 of the Registration Regulation for having falsely sworn to the identity of an executant. Convictions were obtained in four of these and the remaining two are stated to be pending.

5. All the Registration offices in the State except five were inspected by the Deputy Commissioners who are District Registrars or by Assistant Commissioners who are *ex-officio* Inspectors.

SECTION 5—POLICE

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. J. 1931-39—Police 95-05-26, dated Bangalore, 27th December 1907.

Order.—In order to obviate delay in correspondence upon routine matters between the Mysore and the Bombay Police, the following instructions are laid down:—

1. Station House Officers in the Mysore State may correspond direct with Station House Officers in the Bombay Presidency upon matters of routine, such as the movements of criminals and suspicious characters, circulation of descriptive rolls, lists of property lost or recovered, enquiries as to antecedents and convictions of persons, etc.

These communications should be in English or Kanarese. If this is impossible, the Station House Officer must correspond through the Divisional Inspector, who will translate the communication into English.

2. Movements of gangs and known depredators will be communicated by the Mysore Police on the forms appended (Nos. 1 and 2); other communications will be by the Memo form No. 3.

3. Inspectors in the Mysore State may correspond with Inspectors in the Bombay Presidency under similar conditions. They will use the Memo form No. 3.

4. It must be clearly understood that all correspondence in any way controversial in character must be sent through the District Superintendent of Police.

Letter No. 2266—227, dated the 30th September 1907, from the Inspector-General of Police in Mysore, submitting the annual Administration Report of the Police Department for the year 1906-07.

No. J. 1940-48—POLICE 78-07-5, DATED BANGALORE, 27TH DECEMBER 1907.

ORDER THEREON.—The report is very interesting and presents the results of the past year's work in a clear and intelligent form.

2. Mr. F. E. C. Carr was Inspector-General of Police throughout the year, except from the 6th to the 28th October 1906, when Mr. H. H. Sparkes officiated for him.

3. *Strength.*—There was an increase of three men in the sanctioned strength of the Regular Police Force during the year under review, which stood as follows:—

Inspector-General of Police	1
District and Assistant District Superintendents of Police	15
Inspectors	112
Head Constables	760
Constables	5,119
Total ...	6,009

4. *Education.*—All the officers of and above the rank of Jamedar, almost all the Daffedars and nearly half the number of men in the force were literate. The Head-Quarter Police Training School is reported to have worked satisfactorily during the year. The Inspector-General will make a separate reference regarding his proposal to build a hostel for the convenience of the students of the School.

5. *Discipline.*—The number of black marks awarded during the year rose from 172 to 239, while that of other departmental punishments fell from 2,466 to 2,224. The number of Police officers and men subjected to judicial punishments during the year amounted to 36 as against 33 in the previous year.

6. *Village Police.*—The Village Police arrested 76 persons as against 112 in the preceding year. In the maidan districts, they are reported to have done very good work in the tracing and surveillance of wandering gangs. The absence of Totis and Talaries in malnad villages is a serious drawback to Police work in those tracts, as remarked by the Inspector-General.

7. *Cognizable crime.*—The number of cognizable cases reported during the year was 5,520 as against 6,091 in 1905-06, showing an appreciable decrease of 571 cases. The decrease was under all classes of offences except that of minor offences against the person. Including the cases pending at the beginning of the year, the total number of cognizable cases dealt with by the Police during the year was 9,249. Of these, 35 were transferred to the British Police and the Mysore Military Department and 158 were refused investigation, one was struck off owing to the death of the accused, 1,500 were referred to Magistrates on B Form, 794 were returned as undetectable, 3,091 were sent up to Magistrates with charge sheets, and the remaining 3,670 were pending at the close of the year. The percentage of cases convicted to cases decided was 73·5 as against 75·5 in 1905-06.

8. *Preventive action.*—Action was taken under the preventive sections of the Criminal Procedure Code against 145 persons, of whom 59 were bound over for good behaviour, 55 were discharged, 7 were released by the Police, and the cases against the remaining 24 were pending before the Magistracy. For the better enforcement of this provision, nearly all the 1st Class Magistrates have been empowered to take action under Section 565 of the Criminal Procedure Code. Steps have also been taken with a view to improve the system of surveillance and registration of criminal gangs and suspicious characters. The introduction of the Investigation Centre Scheme now in force in the Shimoga District to some other Districts of the State is engaging the attention of Government.

9. *Organized crime.*—There were 23 cases of dacoity and 45 cases of robbery as against 37 and 66, respectively, during the last year. Government note with satisfaction this decrease in the number of cases of daring organized crime, reported to be due to the effective preventive measures adopted by District officers in the border districts of the State, one of which, *viz.*, the system of jungle beats, is said to have resulted in the capture of several dangerous dacoits and in effectually scaring away many dangerous gangs.

10. *Investigation of heinous offences.*—It is gratifying to note that Superintendents and Assistant Superintendents took a personal part in the investigation of all heinous cases reported during the year. The number of cases investigated by the Amildars was 58.

11. *Sessions cases.*—Out of 114 cases committed to the Sessions, 69 ended in conviction, 37 in acquittal or discharge, and 8 were pending at the end of the year, the percentage of convictions to cases tried being 50·7.

12. *Previous convictions.*—Of the total number of persons convicted for offences under Chapters XII and XVII of the Indian Penal Code, previous convictions were proved against 195 persons, as compared with 183 in the previous year. It is satisfactory to note that the Finger Print Bureau has been of material help in preventive and detective work and made good progress during the year. Government join with the Inspector-General in the hope that with the growing efficiency of the Bureau, better results will be secured in future.

13. *Recovery of stolen property.*—The percentage of property recovered to that lost was 35·6 as against 38·3 in the previous year. The fall in the percentage is accounted for by the small amount of property recovered in a case of criminal breach of trust in the Bangalore Central College and also in a case of theft in the Medical Stores, Bangalore, the amount of property lost in both cases being nearly Rs. 14,000.

14. *The Arms Regulation.*—The total number of licenses issued under the Mysore Arms Regulation was 12,847 against 13,041 during the preceding year. Of the 52 persons prosecuted, 44 were convicted and 4 acquitted and the cases against the other 4 were pending at the end of the year. A census of fire-arms was taken in the malnad and semi-malnad taluks of the districts of Mysore, Shimoga, Kadur and Hassan during November 1906, with a view to ensure accurate registration of fire-arms in those tracts.

15. *Inspection work.*—Mr. Carr, the Inspector-General, toured during the year for nearly three-and-a-half months and visited all the head-quarter offices, except Chitaldrug and Bangalore, and 49 Head Stations and 46 Sub-Stations. Out of 652 Head Stations, Sub-Stations and outposts in the State, 504 were inspected by Superintendents or Assistant Superintendents of Police and 89 visited by Deputy Commissioners, only 3 Sub-Stations being left uninspected. The inspection work done is very satisfactory.

16. *Expenditure.*—The total cost of the Department, including the share of the Land Revenue charges debitable to the Police Budget, together with the cost of the Detective Establishment, Kolar Gold Fields, and the Railway Police, amounted to Rs. 9,86,830 as against Rs. 9,92,163 in the previous year, showing a decrease of Rs. 5,333.

17. Government desire to acknowledge the good work done by the Police during the year under the able management of Mr. Carr and trust that the steady progress made will be maintained.

SECTION 2—MUNICIPAL

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Correspondence ending with letter No. L. F. 76, dated the 20th July 1907, from the Comptroller, Mysore Government, submitting a statement showing the quota payable by each Municipality on account of the President's office establishments.

No 5219-27—Ml. 452-06-17, DATED BANGALORE, 5TH DECEMBER 1907.

ORDER THEREON.—The Comptroller explains that, in the statement submitted by him, the charges have been debited to the District and Municipal Funds in the proportions fixed in Government Order No. 722-30—L. F. 3-97, dated the 13th July 1899, and that the Municipal quota is distributed among the Municipalities concerned in proportion of their average expenditure for three years.

2. As regards the apportionment of the charges primarily between the Municipal and District Funds, the scale fixed by the Comptroller in his letter No. 966, dated 3rd—6th February 1899 (tentatively for a period of five years), with reference to the income from Municipal and District Funds, was ordered to be adopted for all the districts except Mysore, for which the proportion was fixed at one-third from Municipal Funds and two-thirds from District Funds. This scale has remained unaltered till now and may continue to be adopted for a further period of five years from 1907-08, unless several of the minor Municipalities are converted into Unions so as materially to affect their relative shares, in which case the proportion of distribution between District Funds and Municipal Funds may be modified suitably.

District	Municipal Funds	District Funds
Mysore District	1	2
Kadur & Chitaldrug Districts	1	1
Other districts	1	2

3. As regards the distribution of the Municipal quota on account of the pay, pension, travelling allowance, contingencies and other charges of the President's office, the Government consider that a scale of proportions based upon the average income for three years should be fixed for adoption and revised once every five years.

4. The Comptroller is requested to have a revised statement prepared in accordance with the above instructions, taking into account the final figures for the year 1906-07 also and submit the same to Government before the close of January next.

1. Letter No. 2224, dated the 20th February 1907, from the State Geologist in Mysore, submitting copies of correspondence between himself and the President of the Bangalore City Municipal Council in the matter of the levy of Municipal taxes on the out-houses attached to the Geological Office buildings, which are, under his orders and solely in the interests of Government, occupied by the watchman and carpenter of the Department, and stating that those quarters seem to be exempted from Municipal tax under the new Municipal Regulation.

2. Correspondence ending with letter No. 3329, dated the 19th June 1907, from the same officer

No. 5430-70—Ml. 413-06-4, DATED BANGALORE, 10th DECEMBER 1907.

ORDER THEREON.—The Municipality claims, on the authority of Sections 64 and 65 of the Municipal Regulation of 1871 and Government Order No. Fl. 1933-6—L. F. 100-95, dated 15th May 1903, arrears of house-tax and other taxes for nine years from 1897-98 on two out-houses attached to the office of the State Geologist, in one of which a servant, and in the other a carpenter, of the Department reside. It is understood that these persons have been permitted to occupy them to guard the Departmental stores at all times and to be responsible for their safety. The question for decision is whether the out-houses referred to are liable to taxation under the Municipal Regulation of 1871 that was in force during the period for which the tax is claimed. Government observe that, under Section 65 of the Regulations, "buildings ordinarily used as public Government offices" are exempt from taxation. In the cases now under question, the occupied buildings are out-houses forming a small portion of premises used as public Government offices, and Government are of opinion that such buildings cannot be treated otherwise than as forming integral portions of the main premises to which they are attached. The main premises are exempt from taxation under Section 65 of the Municipal Regulation of 1871 and this exemption must be held to apply to the out-houses also.

2. Under proviso (*a*) to Section 59 of the Municipal Regulation of 1906, the test of exemption from taxation applicable to buildings, vehicles, animals or other property belonging to Government is that they are used solely for public purposes and not used or intended to be used for purposes of profit, *i.e.*, public purposes and profit are the criteria of liability to taxation and not residential or non-residential use. The exemption therefore applies to the cases under reference where menials are permitted in public interests to reside in out-houses attached to public offices.

3. Government observe that the order of 15th May 1903, related to buildings which, though the property of Government, were used mainly for residential purposes by certain officers of Government either rent-free in virtue of their office or on payment of rent to Government. While holding that such buildings are liable to Municipal taxation, Government consider that out-houses or portions of buildings used as public Government offices are not liable to taxation, when they are used for residential purposes in the interests of Government service.

SIMLA, THE 11TH OCTOBER 1907.

Sir,

It has been brought to the notice of the Government of India that in some localities, the fact that pice packets of quinine are sold at Post Offices is generally unknown among the poorer classes of the population.

2. I am to invite attention to the instructions contained in the Home Department Resolution No. 1197-1209, dated the 21st October 1903, and to suggest for your consideration of the Governor in Council / Lieutenant-Governor the desirability of taking such further steps as are possible to inform the people for whom the pice packets are Primarily intended where they can be obtained.

SECTION 4—SANITARY

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The following letter No. C. 7, dated the 27th September 1907, from the Sanitary Commissioner in Mysore:—

"In forwarding herewith for the information of Government, copy of letter No. 316, dated the 17—26th August 1907, from the President of Municipal Boards, Kadur District, I have the honor to point out that the supply of pure drinking water is by far the most important sanitary measure required in this State, and that unless expenditure out of the funds that can be made available for the purpose is *properly controlled* in every district, most of our towns and villages that have no good drinking water *at present* will have to go without it and drink impure collections of surface water as hitherto, and no appreciable improvement will be possible in the health of the people for years to come. The question is one of very great importance from Public Health as well as other points of view, and every district ought to have a definite plan of action in the matter made out as early as possible and approved by Government. Such a plan does not exist at present and the result is that while District Officers happen to be sympathetic and able, some useful work is done in the direction of extending water supplies and improving existing ones in their jurisdiction, but when these officers happen to be otherwise, available moneys are often frittered away, without the people that contribute the same getting any or adequate benefit in return.

2. Government cannot be unaware of the large sums of money that were practically wasted in the Shimoga District recently on well-sinking in unsuitable localities without proper guidance and with no attempt previously of any trial boring. The consequence was that several villages in the district that are very badly in need of water for drinking had to go without it, and probably may not get it for some years to come till adequate funds become again available. Similar instances have not been altogether uncommon in some of the other districts, where the local officers have, instead of having a survey made of the requirements of the people in this direction in different parts of the district, as to the extent of their urgency and adopting a definite plan of action, yielded either to representations based on local considerations or wasted comparatively large amounts on well-sinking owing to faulty selection of sites, work at wrong seasons of the year, employment of inexperienced agency, or from defective supervision. The instance under reference is one of the kind, and from personal knowledge of the locality I feel sure that the water required for the place could have been provided both cheaper and more promptly.

3. I am of opinion that some rules should be framed for the guidance of local officers in this very important matter, in addition to the check that would be possible hereafter when the District and Central Sanitary Boards sanctioned in the Public Health Scheme are constituted. To lay down any definite rules, it will be necessary to have a special survey of each district made with a view to ascertain the extent and urgency of the need for good drinking water. For this and for supplying the need promptly and economically, and in accordance with hygienic requirements, the Revenue, the Engineering and the Public Health Departments should work conjointly. The Revenue Department should conserve every pie that can be saved out of provisions for less urgent needs whether sanitary or otherwise, and with the help, if necessary, of grants or loans from Government form a special fund reserved entirely for water-supplies in each district. Attempts may with much advantage also be made to direct private charity in every district in the line of public water-supplies in preference to other works of less urgent need for the people. The Public Works Department have to examine the various sites selected as being suitable and convenient to the people and furnish an idea of the relative costs of different methods of water-supply in the selected locality and when sanctioned carry out the approved scheme promptly and efficiently. That our present knowledge of cheap and efficient methods of water-supply is defective and that others are ahead of us in this direction will be evident on a perusal of this office No. G. 690, dated the 19th September 1907. Special efforts have therefore to be made to acquaint ourselves with the methods in vogue in more civilised countries. Much of the work, however, in connection with this water-supply scheme would fall upon the new Department of Public Health, for that Deparment will have to test the suitability or otherwise of every water that is now used

for drinking, both chemically and bacteriologically, examine the existing water-sources as regards chances and facilities for contamination, suggest methods of protection and advise as regards fresh sources, and attend to other details in connection with the scheme. The conjoint work of the three Departments will now be possible more conveniently than hitherto, after the District Sanitary Board is constituted and set going. With a view to form an idea of the condition of water-supply in the villages, I have already called for samples from every taluk of the worst waters used for drinking, being sent up to me. I shall have these examined here on receipt. When the Divisional Sanitary Officers are all employed, I shall have the samples examined in the districts themselves, for that will give more accurate results.

4. As the Health Department becomes organised, I shall also arrange to obtain, with the co-operation of the Revenue and Public Works Departments, a statement from each district showing the present sources of water-supply in every town and village therein, their nature and extent of protection against contamination, the quality and quantity of water available from them, the nature and extent of improvements, or fresh supply needed, etc., together with a plan of work for each district and the opinion of the District and Central Sanitary Boards on the same.

5. As regards the communication from the President of Municipalities, Kadur District, under reference, I am returning it to that officer with a request that the District Sanitary Board may be consulted in the matter, or if that Board has not yet been formed, the opinions of the District Medical and Sanitary Officer and the District Engineer may kindly be obtained and forwarded. On receipt of reply, I shall forward the same to Government with my opinion for information and orders."

No. 5508-21—San. 108-07-2, dated Bangalore, 10th December 1907.

Order thereon.—Communicated to the Deputy Commissioners and Presidents of Municipal and District Boards, the Chief Engineer and the Revenue Commissioner for attention.

2. As it is of primary importance that a special survey of the existing sources of drinking water in the different Municipalities and villages should be made, as also the needs and relative urgency for fresh or additional supply should be ascertained in each district, as suggested by the Sanitary Commissioner, the Presidents of the Municipal, District and Taluk Boards are requested to take needful steps in the matter under the instructions of the Sanitary Commissioner, the Municipal towns and Unions being first taken up and the villages subsequently.

3. Periodical returns of the survey work should be furnished to the Sanitary Commissioner and a suitable programme of work based on these returns prepared and submitted to Government, as the allotment of funds for works will depend upon this programme.

1. Government Notification No. G. 5420—G. M. 113-05-3, dated the 3rd May 1906, prescribing rules for the award of scholarships for Scientific Research and Technical Education from the Damodar Dass Charities Fund.

2. Correspondence ending with Government Order No. 301-8—Edn. 22-06-42, dated 11th July 1907, appointing a Committee for considering and submitting a report about revising the rules in certain respects.

3. Correspondence ending with letter No. 2315—160, dated the 17th September 1907, from the Inspector-General of Education in Mysore, and Secretary to the Committee for the Damodar Dass Charity Scholarships, submitting a copy of the Resolutions of the Committee in regard to the revision of the rules referred to.

No. 5421-8—EDN. 22-06-46, DATED BANGALORE, 10TH DECEMBER 1907.

ORDER THEREON.—It has been found that the rules for the selection of candidates for scholarships, laid down in the Government Order of May 1906, are defective and have failed to attract the right sort of young men, who give promise of making a good use of the opportunities afforded by the scholarships for advanced Scientific and Technical study in Europe, America or Japan. The Government of His Highness the Maharaja of Mysore are therefore pleased to direct that the rules be modified in certain respects as shown below :—

(1) That the present age limit of 22 years be raised to 25 years and that this limit might be relaxed by Government in special cases, such as in the cases of candidates who have specially distinguished themselves in their University career and show very special aptitude for the higher branches of Scientific and Technical study.

(2) That in the case of Graduates in Arts, the scholarships be given only to those who have taken Physics, Chemistry or Natural Science as their optional subject.

(3) That the scholarships be thrown open to all Indians who are Graduates of Indian or other Universities, but that when the qualifications of the candidates are otherwise equal, preference be given to those candidates who are Natives of Mysore by birth or domicile or who have taken a degree from a Mysore college.

(4) That Electrical Engineering be added as one of the subjects of study for which the scholarships may be given; and

(5) That the candidates for these scholarships be required to give evidence of their fitness for practical work in any manner that the Committee may think desirable and to undergo any test or period of probation which the Committee may prescribe.

2. The rules as above revised will be published in the *Mysore Gazette*.

3. As regards the condition in the existing rules, that candidates for the scholarships must have passed with credit a degree in Arts, Medicine or Engineering in an Indian University, Government direct that passing with credit should mean a pass in the First or Second Class in the Degree Examination.

4. The Committee's suggestion that, when one or more scholarships are not awarded in any year, the savings thus available may be utilized for awarding scholarships outside the scope of the rules, to train young men of ability in some special branch of knowledge likely to be of use in some Technical Department of the State, will be separately dealt with.

SECTION 3—MISCELLANEOUS

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The Administration Report of the Public Works Department for the year 1906-07, forwarded with letter No. 7366, dated the 15th October 1907, from the Chief Engineer of Mysore.

No. G. 3543—G. M. 140-07-6, DATED BANGALORE, 14th DECEMBER 1907.

ORDER THEREON.—The final grant for the year 1906-07 under all heads was Rs. 48,85,924, and the total outlay incurred in the Department Rs. 45,63,826 as shown in the statement below :—

Service head	Final grant	Outlay	Lapse	Percentage of lapse	Remarks
	Rs.	Rs.	Rs.		
Provincial	33,02,544	31,61,035	1,41,509	4·28	
Local Funds	75,520	67,241	8,279	10·96	
District Funds	4,07,561	3,91,778	15,783	3·87	
Village School Fund ...	15,654	6,707	8,947	57·15	
Irrigation Cess Fund ...	2,47,210	2,21,788	25,422	10·28	
Palace Fund	66,492	51,274	15,218	22·88	
Cauvery Power Scheme ...	7,59,000	6,22,175	1,36,825	18·02	
Municipal Fund ...	11,943	41,828	—29,885	...	Excess expenditure.
Total ...	48,85,924	45,63,826	3,22,098	6·59	

In addition to the above, an outlay of Rs. 1,86,920 was incurred from "Contributions." Thus the total outlay incurred by the Public Works Department during the year under report was Rs. 47,50,746 against Rs. 50,50,171 during the previous year, the difference of nearly three lakhs being due to various causes, such as, smaller grants having been sanctioned under "Provincial" and "Local Funds," certain sanctions having been received too late in the year to be utilized, the impracticability of carrying out certain tank works owing to the tanks being full, the scarcity of labour in the Shimoga and Kadur Districts on account of the demand for labor and payment of higher wages by the Manganese Companies, the outbreak of cholera in the labor gangs in the Hassan District, etc.

2. The above statement shows that although there was an excess expenditure from Municipal Funds, the amount that lapsed to Government was Rs. 3,22,098 or 6·59 per cent of the final grant. The lapse of 57·15 per cent under "Village School Fund" was due to the belated transfer of funds from the Education budget and to delay in sanctioning estimates in certain cases. The lapse of 22·88 per cent under "Palace Fund" was on account of the materials for the electric lighting installation at Fern Hill Palace at Ootacamund not having been delivered before the end of the year. The lapse of 18·02 per cent under the Cauvery Power Scheme was owing to the insulators and wire ordered from America not arriving before the end of the year, to the credits placed at the disposal of manufacturing firms in England and America not having been drawn upon owing to delay in shipping the materials ordered and also to savings effected under "Working expenses" in the estimate for annual working and maintenance. The other lapses do not call for any remark.

3. The number of Irrigation Major works (*i.e.*, works costing Rs. 2,500 and above) in progress during the year was 148, and the outlay incurred on them was Rs. 6,51,030, *i.e.*, Rs. 3,04,313 on channels and Rs. 3,46,717 on tanks. Satisfactory progress was made during the year on the Marikanve project. The dam was practically completed. The irrigation channels were excavated to almost their full sanctioned length and masonry works thereon were in rapid progress.

4. The outlay on Irrigation Minor works (*i.e.*, those costing less than Rs. 2,500) was Rs. 29,346, *viz.*, Rs. 1,180 on channels and Rs. 28,166 on tanks.

5. A sum of one lakh of rupees was sanctioned for expenditure in connection with the Minor Tanks Restoration Scheme, of which an amount of Rs. 5,000 was resigned. Under this scheme 935 tanks were dealt with during the year under report against 970 in the previous year. The expenditure during the year for masonry and stone-work executed by Government was Rs. 70,122 and the value of earth-work done by the raiyats was Rs. 68,025, exclusive of work of the value of Rs. 13,462 carried out by the Revenue Department at the cost of the raiyats. The work done in the Kolar and Bangalore Districts is reported to be good, but that in the Shimoga and Kadur Districts to be very unsatisfactory. It is hoped that better progress will be shown in these two districts.

6. The most important of the civil buildings under construction during the year under report was the Palace at Mysore, on which the outlay during the year was a little over 2 lakhs. The building was completed excepting the topmost portion of the central cupola, which is under construction. Considerable progress was made in the fitting up of doors and windows, in the erection of carved wooden and embossed metal ceilings, and in plastering and interior decorations to the rooms and corridors. The building was temporarily handed over to the Palace authorities for a short period for the Grihapravesam ceremony which took place on the 5th June 1907, and the festivities and durbars connected with His Highness the Maharaja's and the Yuvaraja's birthday were celebrated in the same. Good progress has been made in the construction of the storage tank for fire-protection to the Palace, and a sum of Rs. 77,124 was spent during the year.

Other important civil buildings under construction were :—

Buildings for the experimental Farm at Hebbal; the Municipal School and the Victoria Hospital at Bangalore; and a new hospital at the Kolar Gold Fields with quarters for the hospital staff. Two buildings were purchased at Bangalore during the year, *viz.*, Messrs. Binny & Co's Coffee Works for being fitted up for the Military Stores and Workshop and Dewan Bahadur A. Ramachendra Iyer's bungalow for the accommodation of Indian State Guests.

7. Under "Communications, Original" the outlay was Rs. 63,665 from Provincial Funds, Rs. 54,643 from Local Funds General and Rs. 55,928 from District Funds. Under "Repairs" the outlay was Rs. 4,49,445 from Provincial Funds, Rs. 2,341 from Local Funds and Rs. 2,73,189 from District Funds. The total length of Provincial roads maintained during the year was 1,941, miles of which 1,760 miles are metalled, and that of the District roads was 3,497 miles, of which 947 miles are metalled.

8. The most important of the bridges under construction during the year were:—

(1) A bridge across the Lokapavani river at Honakere, Mysore District, which was an incomplete work of the previous year;

(2) A bridge across the Hemavati river at Anjur, Kadur District, which was practically completed during the year under report, and

(3) A bridge across the Bhadra river at Magundi, Kadur District. This was also satisfactorily completed during the year with the exception of the embanked approaches, which had to be consolidated and improved.

9. The expenditure incurred on Miscellaneous Public Improvements amounted to Rs. 3,22,501, of which a sum of Rs. 2,18,834 was spent on original works, and Rs. 1,03,667 on repairs. The important original works were improvements to the Basavangudi and Malleswaram Extensions, improving the drainage of those extensions as well as of the Chamarajpet Extension at Bangalore and the formation of the Curzon Park at Mysore. Under "repairs" the chief items were the maintenance of the water works at Bangalore and the Kolar Gold Fields.

10. The Cauvery Power Scheme cost Rs. 5,95,710 during the year, of which Rs. 2,59,661 were for working expenses. The total revenue derived from the scheme was Rs. 20,11,554 and the net revenue was Rs. 17,51893, *i.,e.*, Rs. 16,99,291 from the power-supply to the Kolar Gold Fields and Rs. 52,602 from the Bangalore lighting and power-supply.

11. The cost of establishment during the year was Rs. 8,13,983 (against Rs. 7,96,133 in 1905-06), of which a sum of Rs. 1,32,740 was spent under "Direction," Rs. 6,49,023 under "Construction" and Rs. 32,220 under "Accounts." The cost of establishment on the total outlay on works during the year was 24·9 per cent against 20·6 per cent in the previous year.

12. Government note with satisfaction the good work done by the officers of the Public Works Department and brought to notice in paras 106 to 108 of the report, and the efficient manner in which the Department has been controlled by Mr. McHutchin, the Chief Engineer.

No. G. 3694-734 - G. M. 92-07-15, DATED BANGALORE, 23RD DECEMBER 1907.

ORDER THEREON.—The statement forwarded with the above shows that a sum of Rs. 4-4-6 has been placed under objection by the Comptroller on the ground that the amount being the discount for cashing a cheque, it was not to be charged to Government but recoverable from the party concerned. But as the Superintendent of Government Gardens says that it is the practice to charge such discounts to Government, the charge in question is sanctioned, as a special case.

2. The proper procedure to be followed in such a case is for the disbursing officer to forward the cheques received if they are drawn on recognised banks to the Comptroller for encashment and credit to the proper head of account.

MUZRAI

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Correspondence ending with letter No. 235, dated 18th November 1907, from the Deputy Commissioner, Chitaldrug District, regarding the location of the Government Annachattram at Bommagondanakere in the Molakalmuru Taluk.

No. 2924—MUZ. F. 49 OF 1903, DATED BANGALORE, 21ST DECEMBER 1907.

ORDER THEREON.—In July 1905, one Shanbhog Narasappa petitioned the Deputy Commissioner of the Chitaldrug District, stating that his dwelling house adjoining the present Government Annachattram at Bommagondanakere, Molakalmuru Taluk, was too small for him and praying that the old chattram building might be made over to him. He further stated that if his prayer was complied with, he would build a chattram at his own cost at any place outside the village approved of by the Deputy Commissioner and make it over to Government. Mr. H. Ramanujiengar, who was then the Deputy Commissioner, selected a suitable site near the musafirkhana at the place, and was about to grant the request of the petitioner, when Mr. D. Appu Rao, retired Deputy Superintendent of Revenue Survey in Mysore, who has built a Pranadevaru temple at Bommagondankere (which is at present under Government management) offered to place a mantapam of three ankanams built by him by the side of the abovenamed temple at the disposal of Government, for chattram purposes, if the present old chattram building was made over to him for the use of the archak of the Sri Pranadevaru temple. Thereupon, the Amildar having reported that the mantap as it then was, was too small for the chattram and that it should be extended by three more ankanams if it should be taken up for chattram purposes, Mr. Appu Rao agreed to extend the mantap as suggested by the Amildar and make it over for the chattram. He again requested that, in exchange for it, the present old chattram building may be made over to him for the residence of the present archak of his temple, as the other small building of his, intended for that purpose, was in the occupation of one Satyabhamabai, wife of the late archak. The above proposals were finally sanctioned by the late Deputy Commissioner, Mr. H. Ramanujiengar.

2. The present Deputy Commissioner, Mr. M. Chengiah Chetty, now reports that the said Shanbhog Narasappa has executed the required extension to Mr. Appu Rao's mantapam with his consent, that Satyabhamabai having vacated Mr. Appu Rao's small house, this latter has been made available for the residence of the present archak of the Sri Pranadevaru temple. The Deputy Commissioner now solicits the approval of Government for the whole of the said mantapam being taken over by Government and used as chattram and the old chattram building in the town being made over to Shanbhog Narasappa, as it was with that object that he executed the necessary extension to the mantapam, with the consent of Mr. Appu Rao.

3. The Government observe that it was highly irregular on the part of the late Deputy Commissioner, Mr. Ramanujiengar to have actually sanctioned the above arrangements without previously obtaining the approval of Government therefor. As, however, it is reported that the old chattram building is inconvenient for the purpose and also situated in an insanitary locality, the proposals of the present Deputy Commissioner, referred to in para 2 above, are approved. The old chattram building will accordingly be made over to Shanbhog Narasappa and the mantapam situated adjoining the Sri Pranadevaru temple, taken over by Government and the Government chattram located therein henceforth.

4. A report as to the action taken in the matter is requested.

Government Proceedings No. 1235-47, dated 24th August 1906, sanctioning a cash grant of Rs 50 per mensem to the Bababudanswami's Darga on the Bababudan Hills in the Chikmagalur Taluk.

Memorial Registered No 1574, dated 15th September 1907, addressed to His Highness the Maharaja by Syed Mrutynja Sha Khadri, Sajjada of the Darga, praying for the revival of the cash grant of 143 pagodas formerly made in favor of the institution.

No. 2927-30—Muz. F. 33 of 1901, dated Bangalore, 21st December 1907.

ORDER THEREON.—A cash grant of Rs. 50 per mensem was sanctioned in the Government Order of the 24th August 1906, read above, to the Bababudan Darga, in view to supplement the income from its inam village of Suraguppe, which was found inadequate to meet the increased expenditure for feeding the large number of pilgrims, both Hindus and Mahomedans, resorting to the institution. The Sajjada now represents in his present memorial to His Highness that even after the cash grant of Rs. 50 referred to above was sanctioned, the limited income of the Darga is hardly sufficient to meet the growing needs of the institution, and that therefore he is compelled to supplement it with large sums of money out of his own pocket, and prays that the annual cash grant of 143 pagodas sanctioned in the year 1802 in lieu of the inam village of Dasarahalli and withheld in 1819, may be revived and restored to the Darga.

2. The Government of His Highness the Maharaja observe that, at this distance of time, it is not possible to ascertain why the cash grant of 143 pagodas referred to by the Sajjada was discontinued. As they are, however, inclined to think that the representations of the Sajjada as to the heavy personal expenditure to which he is unavoidably put in feeding the large number of pilgrims of both the Hindu and the Mahomedan religions who resort to the Darga, are well founded, they are pleased to increase the cash grant to Rs. 100 per mensem, with effect from 1st July 1908. The Comptroller to Government is requested to include the sanctioned additional sum of Rs. 600 per annum in the Muzrai budget of the year 1908-09 as a grant from State Funds and to authorize payment thereof to the Sajjada from 1st July 1908. The provision, *viz.*, Rs. 1,200 per annum, should continue to be made in the budgets of future years.

3. The Superintendent of Inam Settlements is requested to register the additional grant now sanctioned in the name of the institution and issue a fresh title-deed therefor.

4. The Government further observe that the Sajjada is under a misapprehension as to the nature of the cash grant of Rs. 50 sanctioned in the Proceedings of the 24th August 1906, read above, when he says that the grant was made "in consideration of the Darga's sandal claim." Such a claim was made once in 1900, and again in 1906, and on both those occasions, it was definitely decided that the right could not be conceded to the Darga. The Sajjada will again be informed that the grant of Rs. 50 referred to above was in no sense made in consideration of his sandal claim which the Government declined to recognize.

2. Government Proceedings No. 960-1—Muz. F. 16-95, dated 31st December 1901, directing the temporary assumption of management by Government in the Muzrai Department of the Ahmed Shah Gumbuz and the Inam village endowed thereto.

READ ALSO—

Government Proceedings No. 3052-5, dated 21st February 1905, declining to restore the Gumbuz and the Inam village to the Manager of the Institution until the Government loan is fully liquidated and also fixing a scale of expenditure therein.

2. Letter No. 215, dated November 1907, from the Deputy Commissioner, Chitaldrug District, recommending the restoration of the Gumbus and its endowments to the Inamdars.

No. 2959-63—Muz. F. 16 of 1895, dated Bangalore, 30th December 1907.

Order thereon.—The Government in the Revenue Department, in their Proceedings No. 13344—R. 1603, dated 28th January 1893, sanctioned a loan of Rs. 3,090 under the Land Improvement Loan Regulation, IV of 1890, to Gulbhar Sha and others, the then Managers of the Ahmed Sha Gumbuz at Chitaldrug, towards the restoration of a breached tank for the benefit of the lands in the Devadaya Inam village of Sajjankere in the Chitaldrug Taluk, granted for the support of the Institution, and directed the repayment of the loan in 15 annual instalments commencing from June 1895. As the Managers, however, rendered themselves very unpopular with the raiyats of the village by their oppressive conduct towards them, and also failed to pay the interest on the overdue instalments, the Government in the same (Revenue) Department, in their Proceedings of the 20th August 1901, directed the attachment of the Inam village and its management by Government. Subsequently, the Managers having also failed to perform the services in the Institution for which the inam was granted, the Gumbuz as well as its endowments were, in Government Proceedings No. Muzrai 960-1—Muz. F. 16-95, dated 31st December 1905, directed to be taken over under the management of Government in the Muzrai Department. Although an appeal was preferred against that order by some of the Inamdars of the Institution, the Government in the Muzrai Department declined to restore the management to the Inamdars as there was no guarantee that the affairs of the Institution would not again fall into disorder. A scale of expenditure amounting to Rs. 671-10-8, inclusive of the yearly instalments on account of the principal and interest in repayment of the loan, was fixed by Government, and payment by the Deputy Commissioner of the balance of the income from the inam land to the shareholders in the inam was also sanctioned.

2. The present Manager of the Gumbuz, Syed Ali Shah, has petitioned the Deputy Commissioner stating that he has paid the instalments due for the years 1907-08 and 1908-09 also and that the loan is fully discharged, and praying that the Institution and its inam village of Sajjankere with its hamlet Rangapura may be restored to his management. He has also promised that in case the management is restored to him, he will hold himself responsible for the proper working of the Institution and report the same periodically. The Amildar reports that the said instalments were credited to the Treasury and that the loan is fully paid up and recommends the restoration. The Deputy Commissioner supports the recommendation.

3. The Government observe that, computing the period of 15 years from 1895, the year from which repayment of the loan should commence, the loan would be fully discharged in the year 1909. It is reported that the instalments for the years 1907-08 and 1908-09 also have been already paid and that the loan has been entirely discharged. Under the circumstances reported by the Deputy Commissioner, the Government are pleased to sanction the restoration of the Gumbuz and its inam village to the Inamdars for their management, subject to their conducting the services prescribed in para 3 of the Government Order of the 21st February 1905, satisfactorily and without giving room for complaint. The Manager Syed Ali Sha appointed by the Inamdars should be directed to maintain regular accounts of receipts and expenditure of the Institution and submit periodical reports thereof and other particulars connected therewith. The Inamdars should be strictly informed that the management is restored to them on the distinct understanding that they will properly conduct the services in the Gumbuz and that their management is favourably reported upon from time to time by the local authorities.

4. The introduction of Survey and Settlement into the Inam village of Sajjankere sanctioned in the Proceedings of the 21st February 1905, read above, should be carried out, at least during the present field season.

GEOLOGICAL

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. 1930-38, DATED BANGALORE, 7TH DECEMBER 1907.

ORDER.—Several instances have of late come to the notice of Government in which arrears of assessment due on gold mining blocks have been allowed to accumulate year after year without any action being taken by the Deputy Commissioners to realize them promptly in due time and enforce the terms of the lease in cases of default. Such delays in collection render realization of arrears more and more difficult and the consequence is that Government have been obliged to forego a large amount of revenue justly due to them. To avoid such difficulties the Government of His Highness the Maharaja of Mysore are pleased to direct that, in future, Deputy Commissioners of Districts will be held responsible for the realization in due time of rents on mining blocks leased in their districts. The Deputy Commissioners are hereby empowered to issue the requisite notices and enforce the terms of the lease regarding the seizure of property in satisfaction of arrears due and resumption of the blocks in default of payment and report such action for the information of Government in the Geological Department to enable them to get the lease duly cancelled.

2. This order will be communicated to all mining lessees for their information.

1	5097 114-07-2	2	Offg. Sr. Surgn. ...	Returns a letter dated the 22nd October 1907, from one Dr. B. M. S. Sodhi, M.B.B.S., to the address of the Dewan of Mysore, which was received with Doctor Mylvaganam's application for an appointment in the Mysore Medical Service.
2	5111 122-07-2	3	Compiler, *Mysore Gaz.*	Notifies the grant of fifty days' privilege leave to Mr. S. K. Hanumantha Rao, Sub-Assistant Surgeon, Civil Hospital, Shimoga, with effect from the 9th November 1907, and the posting of Mr. N. S. Nanjundaiya, temporary Sub-Assistant Surgeon doing duty in the Victoria Hospital, Bangalore, to do duty in the Civil Hospital at Shimoga during the absence of Mr. Hanumantha Rao.
3	5112-3 5-07-27	3	Offg. Sr. Surgn., & Comptr.	Approves of the action of the Officiating Senior Surgeon in having directed Mr. M. Jagannatham Pillay, Assistant Surgeon, to do duty at the General Hospital, Mysore, on the expiry of the three months' privilege leave granted to him in Government Notification No. 92—Med. 329-06-2, dated the 4th July 1907, and communicates to the Comptroller the same and the fact of the Assistant Surgeon having joined the said Hospital on the forenoon of the 3rd November 1907.
4	5114 128-07-2	3	Offg. Sr. Surgn. ...	With reference to his communication forwarding copy of a letter from the Medical Officer in charge of the Victoria Hospital *in re* the discrepancy in the provision made in the current year's budget on account of the two probationary Nurses on Rs. 20 + 15 each per mensem sanctioned in Government Order No. 2614 – Med. 136-05-4, dated 18th September 1907, informs the Officiating Senior Surgeon that, for reasons explained, no further orders are necessary in the matter, as the budget provides for more than what is required to cover the expenditure on account of probationary Nurses.

Serial No.	Proceedings			Subject and Order
	No.	Date	To whom sent	
5	5115 82-07-6	3	Offg. Sr. Surgn. ..	Requests the Officiating Senior Surgeon to ascertain from Miss Thangalatchumy, an applicant for an appointment in the Mysore Medical Service, the terms under which she is willing to take up service and the minimum pay she expects from the Durbar.
6	5150 109-07	3	Dy. Comr., Hassan...	Informs him of the Senior Surgeon's report that the Lady Apothecary at Hassan refuses to do plague work and enquires whether her duties are so absorbing as to allow her no time to examine a few plague cases and whether the services of an additional Hospital Assistant are required for plague duty at Hassan.
